

Termovegar I Box 50 pcs

Thermal covers

COD. CC012

DESCRIPTION

Termovegar A4 size. The production of Tosingraf thermal covers is managed with automated lines that allow us to offer a complete range of colors and thicknesses. The front is made of a transparent scratch-resistant and anti-reflective PVC, the back with leather texture in white, red, blue and black colour offer an elegant outlook. Each thermal cover has a predefined spine and double crease line both on front and back. The quality of the glue is equivalent to adhesive materials generally used in the industrial bookbinding sector. Termovegar from size 21 to 54 mm are produced only in white colour.
