

AutoCloser 33

Electric Wire closing machine

COD. DPCLOS33

DESCRIPTION

Compact automatic electric closing machine for metal binding Wires. Simple and immediate self-adjustment of the closing height. Certified hand protection safety system equipped with a hand guard sensor on the entire perimeter of the closing area. Closes all diameters from 3/16 (4,8 mm) to 1" 1/2 (38 mm). The smart working grid and the magnetic table hold the wire during the closing granting a perfect rounded result.
