

PlastiEVO A3 10R

Professional pouch laminator size A3 - 10 rollers

COD. DPLTEV10R

DESCRIPTION

Pouches laminator for professional use. Max format A3. PlastiEVO A3 10R guarantees excellent laminating results even at high working speeds. Five pairs of rollers. Also suitable for small calendering operations, for example on hard covers up to a maximum thickness of mm. 3. The engine is tested to withstand over 3.500 hours of work, thanks to the special heat resistance, minimum wear of the gears and the special transmission system. Continuous processing is also made possible by the cooling system that optimizes work performance. Rollers are coated with a special teflon treatment, this coating prevents jams and facilitates cleaning. Simply inserting a few thick sheets a couple of times a week will ensure that all glue residues left on the rollers are removed.
