

Arroeco

Entry level manual corner rounding machine

COD. DVICECO

DESCRIPTION

Flexible and affordable corner rounder. Ideal for low working thickness. It can also be completed with optional knives for the 6 mm round hole cut, straight cut and thumb-cut for calendars hanger. Ideally it combines with a punching and binding machine with detachable knives that allows to manage little binding quantity of wall-calendar with hanger thanks to the half-moon cut. Radius cut 3,5 - 6 - 10 mm are included.
