

MAMO Cala 160H

Cold laminator for roll-to-roll operations

COD. PPFPRAT160-E

DESCRIPTION

Large format machine ideal for cold lamination, adhesive and mounting on panels, application tape adhesion. It is equipped with an intuitive control panel to manage the working speed and the temperature of the upper roller (can be heated up to 60°C). The solid and resistant structure makes it suitable for any type of work.

TECHNICAL SPECIFICATIONS

Useful width of lamination: 1.600 mm

Paper entry: 1.620 mm

Max roll opening thickness: 30 mm

Max speed: 3 m/min.

Maximum temperature: 60°C

Pedal control

Voltage: 230V

Power: 2.700W

Dimensions: 2000x700x1250 mm

Weight: 320 kg
