

FSC Touch

Professional banding machine with touchscreen

COD. TFAWK03

DESCRIPTION

The FSC Touch automatic banding machine is simple to use and reliable, it uses paper and polypropylene tapes from 29,2mm to 29,6mm wide. It is equipped with a practical touchscreen for intuitive management of the various settings. Thanks to the German-made motor, it guarantees maximum working speed (32 banding per minute) and reliability over time. Manual or automatic operation thanks to the package detection sensor and equipped with counter. It can be combined with the optional motorized Jumbo Dispenser with automatic unwinder that install reels up to 1.000m with a significant cost saving in terms of time and material.

TECHNICAL SPECIFICATIONS
