HP-Duo

Pneumatic heat press with 2 plates

COD. DPRESDUO

DESCRIPTION

Pneumatic heat press with 2 plates for high volume production. Ideal for the most different application, it guaratees maximum working flexibility via the adjustable pneumatic pressure. Proved reliability thanks to the solid steel structure.

TECHNICAL SPECIFICATIONS

Plate's dimensions: 40x50 cm (double)
Automatic opening
The lower plate is fixed
Pressure: pneumatic
Maximum height of material: 15 mm
Max temperature: 225°C
Weigth: 97 kg
Energy consumption: 1,8 kW
The machine needs air-compressor (not included)
